A superb glass tower rising in front of the sea.

Spacious homes with spectacular terraces, ideal for enjoying the outdoors and the fantastic climate of the Benidorm coast.

The Alicante coast is well known for its mild temperatures and more than 300 days of sunshine per year.

This project is designed to enjoy each of those days, with its very large terraces facing the sea and its well-kept common areas.

Have breakfast every day breathing the Mediterranean breeze and live the lively atmosphere of Benidorm.

In addition to its spectacular sea views, the project offers all the services to enjoy a healthy and full life in the purest Mediterranean style.

You can walk through wide common areas, with flower beds, trees, and palm trees, in a gated complex monitored at its entrance by video intercom. You won't miss paddle or multi-sport courts and children's games for the little ones.

On days when you need relaxation and tranquility, without leaving home you can enjoy its outdoor jacuzzi or wait for the sunset in its personal Chill out.

A special mention deserves its spectacular glass-lined pool with interior LED lighting, island, and wet bench inside.

In addition, the relaxed and full of amenities environment of this project is ideal to prioritize both health and emotional well-being. Residents can make the most of the spaces for sport and relaxation while having immediate access to reliable health resources. This contributes to a full living experience, aligned with the Mediterranean approach of balance and quality of life. In short, the project not only offers luxury but also practical options to ensure that every aspect of daily life is comfortable and satisfactory.

And for sports enthusiasts, on the 26th floor there is, in a double-height space, a gym and heated pool.

Spacious and open-plan homes designed to capture the light. The boundary between exterior and interior is blurred through large windows and spacious terraces topped with glass railings.

All homes have a parking space and storage room.

Find out about the homes with solarium and Jacuzzi-type hydro-massage bathtub.
